

What we do: Superconducting Magnets. Manufacturing, engineering and calculation. Power sources.

Where: Spain (two manufacturing sites Spain North. One office Madrid)

Consortia examples:

ITER TF Coils 10 WP. Consortia Member (ASG, Iberdrola, Elytt)

ITER PF coils tooling. Consortia Leader (Elytt, Alsymex)

SME:

Drawback: Limited financial capacity
Not “unlimited resources”

Advantages: Fast high level decision making. High Flexibility
Hi Tech Specialization
Competitive (smaller structure)
