CONFERENCE
2020
VIRTUAL CONFERENCE
NOVEMBER 24, 2020

Remote Handling & Robotics

Shared perspectives on remote handling at big science facilities, both from the research facilities and the industry's point of view.

Overview of on-going projects and upcoming procurements within remote handling.

Julia Hellström, Business Developer Big Science Sweden will moderate the session

Agenda

- 1. Update on the Active Cells Facility in ESS**
Carwyn Jones, Work Package Manager for Remote Handling Systems at ESS
- 2. The project Mock Up and Test Stand frame for remote handling at ESS**
Kristofer Bard Ahlström, Sales and Business Development Manager at Elajo
- 3. Opportunities to collaborate with RACE the robotics unit of UKAEA beyond the ESS Active Cell Facility**
Nick Sykes, Head of Operations, RACE
- 4. Mobile robot requirement for Super-FRS component at FAIR**
Faraz Amjad, Design and Planning Engineer at GSI Helmholtz Center for Heavy Ion Research

This session will be recorded.

Please mute yourself during the presentations.

Write your questions in the chat and we will bring them up after the presentations.

We have short time for questions but invite you to book 1-1 meetings for continued discussions
