BIG SCIENCE BREAKFAST AT THE LOOP IN LUND

Great to see you

Knowledge, innovation,
international collaboration

... and good business for Sweden

BIG SCIENCE

BIG SCIENCE SWEDEN's MISSION

Assignment from the Ministry of Enterprise
via the Swedish Innovation Agency (Vinnova):

Support Swedish industry, institutes and academia to
contribute to the construction, development and
upgrade of Big science facilities.

Focus on high-tech contributions that drive
research, development, innovation, international
cooperation and generate **good business for
Sweden**.

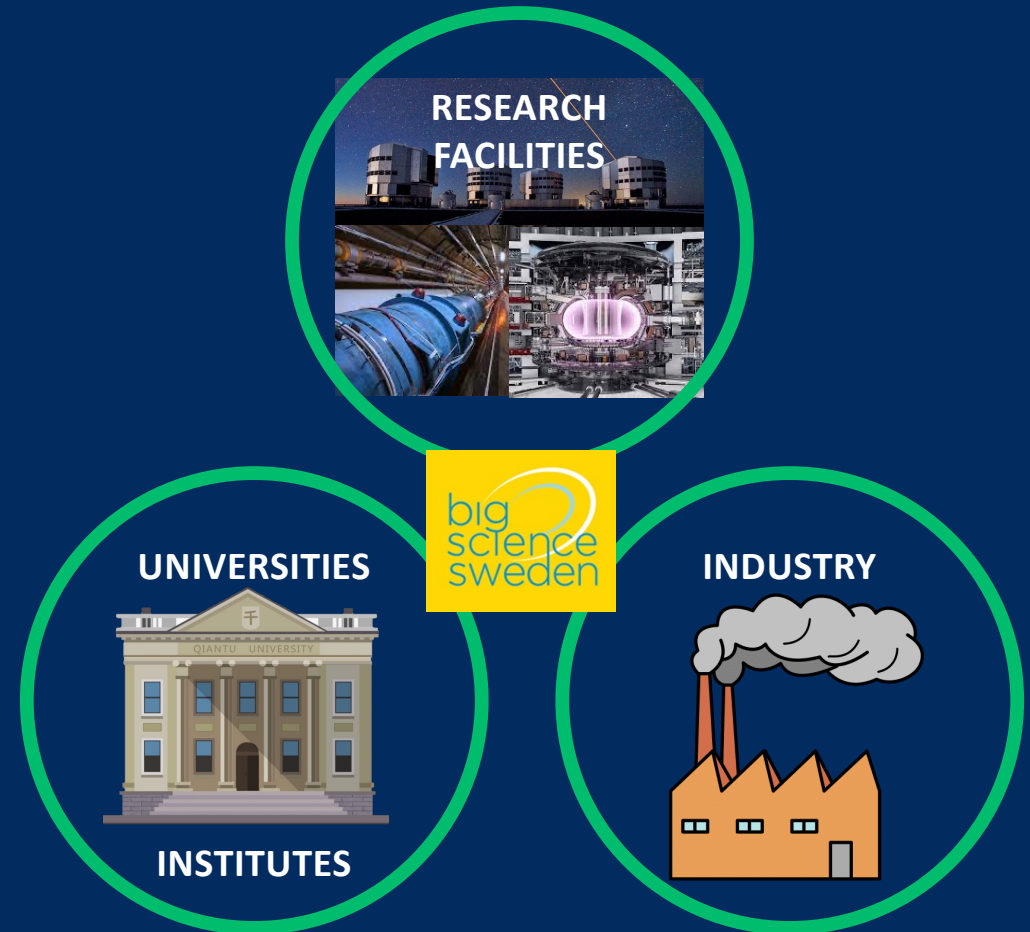

Create value for Swedish industry and society
by **transferring new knowledge, technology
and competence** to diverse areas of
application.

GOALS

Increasing the Swedish share of:

- Orders to industry
- Deliveries from research groups
- Collaborations between industry, universities/institutes and research facilities
- Innovation and R&D
- Tech transfer
- Knowledge transfer
- Students and career paths
- Professional development
