Frida Tibblin Citron
Business Development & Project Management

Dear Big Science Sweden members and friends,

The eagerly awaited Swedish spring has arrived, and we are continuing to create business opportunities for our member companies. Next in line, at the end of the month, is a **Focused Technical Workshop on carbon fibre**, to which we have invited experts from CERN and ESS. Don't forget to book some 1-to-1 meetings at the event.

The right skills and expertise are crucial to winning orders of course, but it is also important to understand the procurement processes. The facilities' calls for tenders can seem daunting and demanding, so we have invited procurement experts from some of the facilities to give advice and step-by-step guidance at the **Step by Step – Big Science Procurements** event on 27 May. You don't have to stay for the entire morning – just attend the parts you're interested in – but don't miss the opportunity at the start to present your company to the procurement experts and show them what you can offer Big Science.

I look forward seeing you at our digital events.

Frida Tibblin Citron

Sign up for our Focused Technical Workshop: Carbon Fibre

One of the great challenges at many facilities is to build stable frames in material that is both light and strong. On Thursday, 29 April 2021, you have the chance to learn about the facilities' needs for carbon fibre and composite structures. [Read more](#)

Knowledge and technology transfer between ESS, other research facilities, industry, and academia

ESS will have Sweden's most complex control system, and will use machine learning to optimise operational reliability. Through several collaborations with industry and technology companies in machine learning and AI, ESS is also contributing to digitalisation and technology transfer. [Read more](#)

Proact IT Sweden to provide IT infrastructure services to research facilities

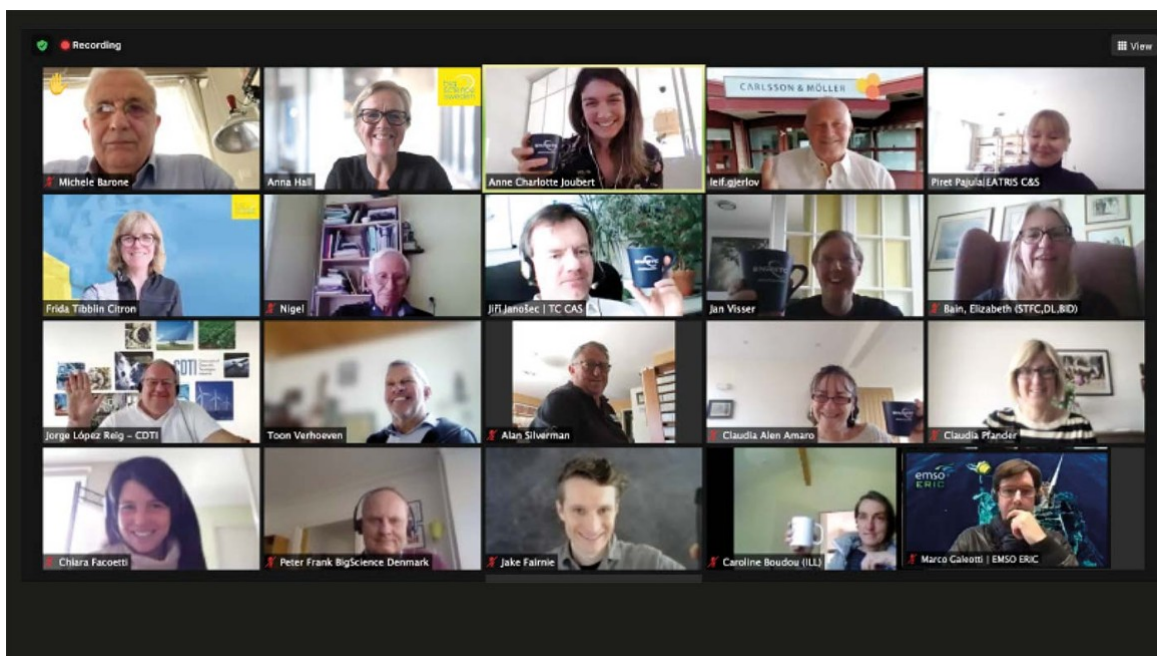

Our member company Proact IT Sweden has qualified to provide IT cloud services to the research world. The company has now entered into a comprehensive framework agreement with OCRE (Open Clouds for Research Environments). [Read more](#)

Successes for our member company, MCT Brattberg

Within a short period, the company has won two orders, one from ESS and the other from the Jules Horowitz Reactor, a test reactor for water-cooled nuclear power, built in connection with ITER. [Read More](#)

Everyday challenges and opportunities for Carlsson & Möller – a Big Science supplier

In the pan-European project ENRIITC, virtual coffee breaks are organised to network and share knowledge. [Read more](#)

See BitSim video pitch

We encourage all member companies to record a video pitch, just as BitSim has done.

Please contact [Frida Tibblin Citron](#) to set up a meeting for the recording.

Two intensive days at Remote ITER Business Meeting

At the Remote ITER Business Meeting, 7-8 April 2021, ITER technical experts from various fields shared valuable information about forthcoming procurement needs and contracts. [Read more](#)

Upcoming activities

Make sure you have the necessary knowledge and tools to win orders from ESS, CERN and ITER

Thursday, 27 May 2021 • Big Science Academy • We have invited procurement experts from the facilities to this Big Science Academy – they will be going through the procurement process, step by step, and showing you what you should remember. [Read more](#)

The event in Lund is co-hosted by Lund University, Big Science Sweden, and LINXS.

BigScience@

This serie of workshop focuses on the academies past, present, and future involvement in upstream delivery to Big Science facilities.

3 May 2021 • BigScience@LU 2021

1 June 2021 • BigScience@LTU 2021

3 June 2021 • BigScience@Chalmers 2021

ESS EXPERTS INNOVATION FOR INDUSTRY

A webinar series with ESS experts on innovation for industry

April 28, 2021 • Accelerate Task 3.2

Webinars • Learn more about some of the innovative solutions developed specifically for the ESS project – on the topic of ESS Accelerator & Detector Technologies in this new series of webinars brought to you by the Accelerate 2020 project. [Read more](#)

Focused Technical Workshop: Carbon Fibre

Apr 29, 2021 • One of the great challenges in various applications at many research facilities is to build stable frames in both light and strong material. At this Big Science Morning you will learn about the facilities' needs for carbon fibre-and composite structures. [Read more](#)

Academic infrastructures for industrial development

Wednesday, 5 May 2021 • Big Science Sweden and the ÅMA Ångström Materials Academy will be holding a seminar on research infrastructure for industrial development. [Read more](#)

RI.Logistica conference

19-20 May 2021 • Organised by ESS and BrightnESS-2

All aspects of logistics critical for research facilities and laboratories. [Read More](#)

BSBF2021 postponed

BSBF2022 • Europe's largest Big Science event

The Big Science Business Forum International Organising Committee has decided to postpone this year's BSBF21 event to safeguard the health of all participants. It will now take place on 4-7 October 2022. [Read more](#)

BSBF 2022 is a business-oriented congress that gathers all the European research infrastructures focused on technology. The aim is to be the meeting place for research infrastructures and industry. [Read more](#)

Big Science Sweden In Brief 2020

In this report we sum up 2020, a year in which things have definitely not been as normal. However, Big Science Sweden, together with our partners, successfully landed in a virtual world. [Read more](#)

The Swedish Guide 2021 – time to update your information!

Last year's edition, an extensive publication of 356 pages, featured presentations of no fewer than 208 companies with the capacity, skills, and expertise to supply solutions to leading research facilities. The 2020 Guide also featured 69 Swedish academic contributions. We are now starting to put together the 2021 edition. [Read more](#)

Every Wednesday, 10-10.30, you can join a short Zoom meeting and learn about current procurements.
